

I requested to be put on the "No Call" list to keep from getting unwanted phone calls from businesses/telemarketers trying to sell me something. This includes businesses with whom I already do business. They can advertise just like everyone pays to do. If I am in need of their services, I will call THEM to inquire about it. I DO NOT want them to call me, a current customer, to try to sell me something else of theirs. I feel this violates my privacy.
